

Job Posting 21-009

Intermediate Hydrogeologist or Environmental Engineer - Ottawa

Overview

Jp2g Consultants Inc. is an employee owned, multi-disciplinary consulting firm providing a comprehensive range of planning, engineering, environmental, and project management services to the public and private sectors, from offices located in Ottawa, Pembroke and Arnprior. Jp2g is committed to maintaining client satisfaction, encouraging employee growth, and enhancing our communities.

Our growing Ottawa office currently requires an **Intermediate Hydrogeologist or Environmental Engineer**. We are looking for someone with 7 + years of professional experience who is:

- ✓ Seeking an opportunity to grow their career
- ✓ Highly motivated and hard-working
- ✓ Eager to increase responsibilities

As a member of our team, you will be responsible for environmental and engineering project management, administration, technical input, and business development related to a variety of environmental work.

At Jp2g you will work with a dynamic multi-disciplinary group of engineers, technicians, project managers, and planners. As a valued member of our professional team, you will enjoy a unique working environment and will be provided with opportunities to demonstrate your initiative while developing your skills.

Role and Responsibilities

*The role and responsibilities for the **Intermediate Hydrogeologist or Environmental Engineer** include, but are not limited to, the following. Employees may perform other related duties as negotiated to meet Jp2g's ongoing needs.*

Technical Capability

- ❖ Work with the Department Manager to develop technical reports, and project budgets
- ❖ Work under the direction of the Manager of Environmental Services Department
- ❖ Completing background documentation reviews, field investigations, data analysis, and preparing reports to document findings.
- ❖ Completing and supervising field investigations including soil, groundwater, sediment and surface water sampling, overseeing drilling or excavation contractors, surveying, coordinator of sample analysis with laboratories
- ❖ Performing environmental monitoring or investigation
- ❖ Solid knowledge of environmental laws, regulations and guidelines as they apply to environmental and construction projects in Ontario
